

CHISWICK IN FILM FESTIVAL 2024

We'd be delighted if you can share news of the Young Filmmakers' Competition 2024 with your students. Last year we saw some brilliant entries that energised our local community and engaged a younger audience with filmmaking and the cinema. Having both Colin Firth and Michael Attenborough dedicate their time to judging the entries and providing personalized feedback was truly a unique opportunity for our young entrants.

We've expanded the categories to 10 to 17 and 18 to 25 to cater for a greater breadth of filmmaking talent. All the films have to feature one scene in Chiswick and the rest is completely over to the filmmaker. It really could not be simpler and with some star judges to be announced, the chance for some cinema themed prizes and an invitation to a special announcement ceremony included – it promises to truly be something exciting and motivating for young filmmaking talent.

The CIFF festival team will gladly welcome opportunities to speak to classes or assemblies, and likewise we'll extend an invitation to our drop in sessions once we have the dates.

Attached are posters for display and below are relevant links/address for queries.

Many thanks
Chris & The CIFF Team
